Minden City Murmurings.

Life in Minden is about the same. Bread, meat and potatoes alternating with beans. As the holidays approach we hope for a change of diet. Some turkey maybe.

-BALLOU'S MAGAZINE for January is a splendid number, and contains more good reading than any serial in the country. There is a capital illustrated article on Mexico and its people, and the commencement of Mr. William II. Thome's new yarn, "On Land and Sea, or California in the Years 1843, '44, and 45," which will prove very interesting to the ploneers of that State, and all who have visited that country. It is a biography that will please old and young, giving as it does the habits, customs, and accounts of the noted people of California be-fore gold was discovered there. No one should fail to read it. Besides "On Land and Sea, there is a spirited illustrated poem by the popular poet and humorist, Earl Marble, and some twenty or more stories, sketches, and poems, by well-known writers.
